Essay

There are many hobbies. **My hobby is jewelry making.**

First, necklaces are fun to make. There are so many beautiful beads to choose from. I carefully choose each bead to make a pattern.

Next, rings can be a challenge to make. They take a lot of time. I have to bend the metal to fit the person that will wear it.

Last, I enjoy making colorful bracelets. My mom bought me a bracelet kit. It has different colors of yarn to weave for bracelets.

Jewelry is a fantastic hobby.
